Sonos Equipment- Article no. 8460

Resolution Steps

Sonos One

Sonos Beam

Features

1. **Wireless**

   - 2.4Ghz networks only

   - Wireless G compatible

   - Sound is streamed from your wi-fi network, not your phone

2. Compatible with **<u>Eero whole home Wi-Fi solution</u>**

3. **Multi-room** - Play any song in any room. Or the same song in every room

4. **One App Control** lets you control everything, from songs to rooms to volume

5. **Pure, immersive sound** in any room of your home

6. **Compatible** with streaming services, on-demand radio, podcasts, audiobooks, music downloads, etc.

7. Works with **Alexa, Google assistant, and Airplay**

8. Compatible with the **TiVo Experience 4 with Voice** Remote:

   - Go to **TiVo Home |** left arrow to **Menu | Settings | Remote,**

- Only program **part 1: TV power, volume, and mute.** This step gets the peanut remote to speak to the TV

- Setup the **TiVo Voice remote's volume button to program the Sonos device** volume

9. Set up your Sonos App:

- **Sonos App | Settings | Room Settings | [choose a room] | TV Setup and Control | Remote Control Setup**

10. **Trueplay** tuning listens to your room then adjusts your speaker so it sounds great, no matter where you place it (Apple iOS Devices Only)

11. **Speech Enhancement** keeps dialogue at a consistent level and reduces volume of loud sound effects

12. **Night Mode** makes quiet sounds enhanced and loud sounds less intense

13. **Software updates** are sent periodically to make the Sonos experience even better
