Pandora App on TiVo and IPTV- 2067

Introduction

Pandora is personalized internet radio designed to help you discover new music you'll love and enjoy music you already know

- Pandora's **free version** offers **40 hours** of **ad-supported** music per month; **Pandora subscription service** also available (credit card required)
- Pandora's music licenses **do not allow replaying or rewinding** a song for **free** Pandora services; upgrade to **Pandora subscription service** to enjoy these features
- Create **up to 100 stations** at any one time; once the maximum is reached, delete an existing station before adding another one
- If you are experiencing issues with the Pandora app, visit the **Pandora website** for assistance

Explicit Lyrics

- Pandora works from the originally released version of every song, **regardless of content that may be objectionable to certain listeners**
- You can **filter** songs that contain profanity, as well as ads aimed at a more mature audience, by **enabling the explicit-content feature**
    - Profanity and clearly adult language is filtered; risqué topics or innuendo may still get through
